

Friday Tutoring Sessions 2015-16

Students in GMP I-IV are encouraged to drop into Baldy 108 or 110 for extra help. Students can come for the complete session or can drop in at any time with their questions. They may also work on their homework independently at the session, getting help as needed. Our UB staff (teaching assistants, mentor/graders, and volunteers) run the tutoring center and will supervise students while they are in the classrooms. This service, for GMP students only, is available on the following Fridays from 4 to 6pm:
