

GMP II into III Summer Homework

- This homework will be your first GMP III 1st quarter quiz.
- **This is not meant to be done in one sitting.** Plan ahead and pace yourself so that you are doing one lesson at a time. You will get much more out of it this way.
- You will need a calculator, a ruler, and a protractor to complete this assignment.
- The assignment pages can be found in the eMathinstruction website under Common Core Geometry, Unit 1. You can use this link:
<https://www.emathinstruction.com/common-core-geometry/>. Watch the video lessons 1 through 4 and complete lesson 1 through 4, both classwork and homework pages.
- Show all work in the space provided. Please clearly print your name in the “Name” section and put “Quiz #1” in the dateline. You must show all work to receive full credit.

Note that measurements on the printouts may not match the video if your browser is fitting the sheet to the page width. To fix this in a Firefox browser, change the settings from ‘fit to page width’ to ‘scale 100’ with paper size as ‘US Letter.’ Other browsers may have similar adjustments.
